Derryk Theberge

Entry Software Developer

A passionate software engineer, eager to learn about new technology and design. Aiming to obtain a entry position in the field of computer science and or mathematics.

derryktheberge@gmail.com | (405) 371 - 2099 | linkedin.com/in/derryktheberge

EDUCATION

Bachelor of Science in Computer Science
University of South Florida

08/2018 - 05/2022 *GPA - 3.7*

Courses

- Analysis of Algorithms
- Data Structures
- Operating Systems
- Database Design

Bachelor of Arts in Mathematics
University of South Florida

08/2018 - 05/2022 *GPA - 3.7*

Courses

- Abstract Algebra I
- Intermediate Analysis I
- Quantum Algorithms
- Partial Differential Eq

PROJECTS

GoTask (08/2021 - 12/2021)
- Created a Google Chrome extension that allows the use OnTask functionality in the extension through OnTask APIs and NodeJS

CO2 Website (06/2021 - 07/2021)
- Created a web application using React and CSS

BlueSafe (03/2020)
- Created a phone application to help increase safety of walks
- Contains features such as logging and pinging others your location, displaying nearby safe zones and public spaces

Terminal Pokémon (03/2020)
- Created a terminal replica of the Pokemon Blue
- Utilized Object Oriented features such as inheritance, encapsulation, and polymorphism

E-Mesh (03/2019)
- Built a hardware device that enables long-range communication device without the need for wi-fi
- Built an app with Android Studio to allow communication from phones to the modules

AWARDS

JP Morgan Chase Hack for Social Good (03/2019)
Hackabull
- Rewarded for EMesh project

Hackabull Best Hardware (03/2019)
Hackbull
- Rewarded for EMesh project

SKILLS

Technical
C / C++, Java, Python, Maple, Matlab, Javascript, HTML, CSS / SCSS, Bootstrap, React, AdobeXD, PostgreSQL

Other
Agile Methods, Self Motivated, Patient, Communication, Organized

WORK EXPERIENCE

Teaching Assistant
University of South Florida

08/2020 - 05/2022 *Tampa, Fl*

Achievements/Tasks

- Address student concerns in regular office hours
- Grade assignments and tests

Research Assistant
University of South Florida

05/2021 - 12/2021 *Tampa, Fl*

Achievements/Tasks

- Read papers to informally collect current progress on quantum algorithms to improve bounds on solving code equivalence
- Created tests in Matlab to test approximate gate and time cost

Peer Mentor
University of South Florida

08/2019 - 05/2020 *Tampa, Fl*

Achievements/Tasks

- Helped transition first year engineering students to university
- Communicated with faculty to create activities for students

ORGANIZATIONS

Bulls LEAD (08/2019 - 05/2021)
Member

Hacklahoma (01/2021 - 05/2022)
Web Developer

Society of Asian Scientists & Engineers (01/2022 - 05/2022)
Web Developer
