# Derryk Theberge

Software Engineer

Passionate Masters student and software engineer.
Continually eager to learn more and grow personally and professionally.

derryktheberge@gmail.com | ( 405 ) 371 - 2099 | Oklahoma City | linkedin.com/in/derryktheberge

## EDUCATION

### Master of Science in Computer Science
Georgia Institute of Technology

*08/2022 - Present*

*Courses*

- Cryptography
- Quantum Computing

### Bachelor of Science in Computer Science
University of South Florida

*08/2018 - 05/2022* *GPA - 3.7*

*Courses*

- Analysis of Algorithms
- Data Structures
- Intro to AI
- Operating Systems

### Bachelor of Arts in Mathematics
University of South Florida

*08/2018 - 05/2022* *GPA - 3.7*

*Courses*

- Abstract Algebra I
- Intermediate Analysis I
- Quantum Algorithms
- Partial Differential Eq

## PROJECTS

GoTask (08/2021 - 12/2021)

- Created a Google Chrome extension that allows the use OnTask functionality in the extension through OnTask APIs and NodeJS

CO2 Website (06/2021 - 07/2021)

- Created a web application using React and CSS

BlueSafe (03/2020)

- Created a phone application to help increase safety of walks
- Contains features such as logging and pinging others your location, displaying nearby safe zones and public spaces

Terminal Pokémon (03/2020)

- Created a terminal replica of the Pokemon Blue
- Utilized Object Oriented features such as inheritance, encapsulation, and polymorphism

E-Mesh (03/2019)

- Built a hardware device that enables long-range communication device without the need for wi-fi
- Built an app with Android Studio to allow communication from phones to the modules

## SKILLS

**Technical**

C, C++, Java, Python, Maple, Matlab, Javascript, HTML, CSS/SCSS, Bootstrap, React, AdobeXD, PostgreSQL

**Other**

Agile Methods, Self Motivated, Patient, Communication, Organized

## WORK EXPERIENCE

### Software Engineer
Northrop Grumman

*09/2022 - Present* *Oklahoma City, OK*

*Defense Contractor*

*Achievements/Tasks*

- Develop, test, and maintain software to support defense products in line with requirements
- Support Integration

### Teaching Assistant
University of South Florida

*08/2020 - 05/2022* *Tampa, Fl*

*Achievements/Tasks*

- Address student concerns in regular office hours
- Grade assignments and tests

### Research Assistant
University of South Florida

*05/2021 - 12/2021* *Tampa, Fl*

*Achievements/Tasks*

- Read papers to informally collect current progress on quantum algorithms to improve bounds on solving code equivalence
- Created tests in Matlab to test approximate gate and time cost

## AWARDS

JP Morgan Chase Hack for Social Good (03/2019)

*Hackabull*

- Rewarded for EMesh project

Hackabull Best Hardware (03/2019)

*Hackbull*

- Rewarded for EMesh project
